

# Columbia Parkway construction

An \$8.5 million replacement of the Columbia Parkway bridge begins March 15 and won't wrap up until October 2005. The bridge will remain open to traffic but some ramps will be closed. Here are the detours for the project:

## FOR COLUMBIA PARKWAY

**1 Northbound I-471:** Exit onto Sixth Street, left onto Sycamore Street, left onto Fifth Street, and proceed eastbound over the Columbia Parkway viaduct onto eastbound Columbia Parkway.

**2 Eggleston Road:** Right onto Pete Rose Way, right onto Broadway, right onto Fifth Street and proceed eastbound over Columbia Parkway viaduct to eastbound Columbia Parkway.

## FOR MOUNT ADAMS

**3 Eastbound Columbia Parkway:** Left onto Kemper Lane, left onto Nassau Street, and left onto Gilbert Avenue.

**Bains Street (not on map):** Right onto Delta Avenue, left onto Eastern Avenue and right onto Stanley; go three blocks to Kellogg Avenue. Bains Street is to be closed only at night.
